FILE HEADING

Schedule of rules of the Municipal P.W. works of the Cities of Bangalore & Mysore.

The President, Mun: Commission, Bangalore City.

No 221 Dated 10.5.06 Received 11.5.1906

866g	Enclos 1 Spare Copies —	Serial No 2

BRIEF ABSTRACT OF LETTER

Submits a copy of the schedule of rules P.W. department and states that it is not scrutinized and passed by the Board.

NOTES AND ORDERS

With reference to resolution No. 6 of the C & M Station Municipal Commissioners arrived at their meeting held on the 30th September 1905, the Hon'ble Councillor was pleased to observe

-First sheet.

MGCPB—50,000—17 2-0.

as follows. —

"Please see No 12 page 117
"I would suggest a copy of the
"schedule of rates being obtained
"and kept here for reference in
"comparison with City Municipal
"schedule of rates. Is there a
"copy of the rates in the office
"here? If so, I would like to
"it" (Sd) Y. A. R
13. 2. 19

2 As we have no schedules of rates in office, they were called for from the Presidents of the two Cities. Enquiry was also made as to whether they were being scrutinized by the Board every year and passed, as is being done in the C & M Station Municipality.

3 The schedules of rates for the two Cities have been received. Information has also been furnished that, while the Mysore City Municipal Board scrutinizes and passes the schedule occasionally, it is not being done at Bangalore.

4. The copy of the schedule of the C & M Station Municipality which had been received here informally for reference

Serial No

had to be returned to-day. Hence, a fair letter to the Residency is submitted asking for a copy of it for this office reference.

5 It seems desirable that the Boards should scrutinize these schedules every year with the Budget and pass them as is being done in the Colombo Municipality & elsewhere, an order may come after the Colombo Station rates are known and a comparative statement prepared. In the meantime, these papers may be submitted to the Commissioner for Kindly perusal, as he was pleased to remain the office only the other day about this suggestion.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

LOCAL FUND AND SANITARY (MUNICIPAL)

PROCEEDINGS

Dated 12th March 1907

No $\frac{8261\ 70}{\text{MI}\ 575\ 05\ 12}$

Observing that no definite system is at present followed by the several Municipal Boards in the State in the matter of the preparation of estimates for Municipal works and their execution, and issuing definite instructions in the matter with a view to remedy this defect and ensure uniformity of practice in all Municipal Towns

GPB—26 3 07—200

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Municipal), dated 12th March 1907

No 8261-70—Ml 575 03 12, dated Bangalore, 12th March 1907

Order —Government have noticed that no definite system is at present followed by the several Municipal Boards in the State in the matter of the preparation of estimates for Municipal works and their execution Schedules of rates are, if at all, very rarely maintained, and where such schedule is maintained, no arrangement is made for its periodical scrutiny With a view to remedy this defect, and ensure uniformity of practice in all Municipal towns, Government are pleased to issue the following instructions which can also be duly incorporated in the Rules to be prepared under the Mysore Municipal Regulation, VII of 1906 —

(*a*) A schedule of rates for each kind of work (commonly executed) should be prepared and carefully scrutinised by a select committee of competent members on the Board and then discussed by the Board at one of its meetings with due notice thereof and finally approved with such modifications as they may deem necessary, a copy of the schedule thus finally passed by the Board being submitted to Government for information without loss of time The standing schedule may be taken into consideration at every first meeting of the Municipal Board held in the official year

(*b*) Estimates for works to be executed should be framed in strict accordance with the standing schedule of rates and alteration in the rate for any particular item should, if necessary, be considered by the Board and allowed only in exceptional cases with reasons for the same duly recorded

2 As regards the actual execution of the work, the President should try to introduce an element of competition by which the rates may be beaten down as low as possible and should adopt with necessary modification the course now being pursued in this respect by the Department of Public Works

K S CHANDRASEKHARA AIYAR,

For 100 c ft				11 2 6

IX

Data for 100 Cubic feet

Item —STONE HÆMATITE

Rolling from a height of 50 on the average

Particulars	Per	Rate	Quantity	Cost
For 1 cubic yard or 27 c ft of stone—		Rs a p		Rs a p
1 Earth work for exposing quarry	c yd	0 3 4	1	1 3 4
2 Quarrying Rolling and loading into Trucks	do	1 4 0	1	1 4 0
3 Trollying average distance 1½ miles		0 4 6	1	0 4 6
4 Blasting materials	c yd of stone	0 1 1		0 1 1
5 Maintenance of tram line		0 1 3		0 1 3
6 Opening out new lines		0 1 0		0 1 0
7 Temporary establishment for petty supervision		0 1 5		0 1 5
8 Repairs and Renewals to waggons		0 3 0		0 3 0
9 Mending tools		0 0 9		0 0 9
Total for 27 c ft				Rs 2 4 4
Cost for 100 c ft				Rs 8 1 7

N B—Each wadder with his family is a task worker When he quarried a sufficient quantity of stones he applied to the Sub Overseer for a truck and a truck load was taken as ⅔rds of a c yd so payments were made to him every week on the number of truck loads of stones supplied by him

X

MARIKANAVE DIVISION

Data for 100 Cubic feet

Item —STONE TRAP

Particulars	Per	Rate	Quantity	Cost
		Rs a p		Rs a a
1 Collection at quarry	c ft	0 1 1	27	1 13 3
2 Carting average lead 4 miles	c ft	0 1 3	27	2 1 9
3 Blasting materials	c yd of stones	0 0 3	1	0 0 3
4 Mending Tools preparing bits and repairs to waggons		0 2 4	1	0 2 4
5 Temporary maistries for petty supervision		0 0 7	1	0 0 7
6 Steel for bits &c		0 0 9	1	0 0 9
7 Trollying to Dam site		0 1 10	1	0 1 10
8 Road repairs to wadder carts		0 1 9	1	0 1 9
Total for 27 c ft				R 4 6 6
For 100 c ft				Rs 16 5 0

N B —These stones are quarried by wadders owning carts They remove skin from all sides and cart their own stones and are paid Re 0 2 0 to Re 0 2 6 per c ft including cartage Stones in each cart as it comes are measured before they are unloaded When blasting of big boulders has to be done Government supplies blasting powder and blasts if the wadder making the holes required from his rate Steel bits for hammers are supplied by Government Cart tracks are made by Government Repairs of tools required by wadders are done also by Government Where carts cannot come near enough to the Dam the stones are trolled down on a tramway from where the carts are unloaded

XI

Data for 100 Cubic feet

Item —MASONRY CONSTRUCTION CHARGES

Mortar-lead 400 Lift 10 —Stone lead 400 No lift

Particulars	Per	Rate	Quantity	Cost
Labor required for 160 c ft turned out daily by the following labour—				
1 Masons	Each	0 12 0	3	2 0
2 Female coolies to assist do		0 2 6	3	0 7 6
3 Navaganies to convey stones from the unloading platform to site		0 8 0	5	2 8 0
4 Coolies to convey gadagas or small stones and chips		0 2 0	3½	0 7 0
5 Coolie to convey mortar		0 2 6	6	0 15 0
6 Gadaga splitter		0 5 0	1	0 5 0
7 Cooly for washing stones		0 4 0	1	0 4 0
8 Cooly for watering masonry		0 3 6	1	0 3 6
9 Proportionate cost of masonry maistries wages		1 2 0	½	0 2 6
Total for 160 c ft				7 8 6
Cost of 100 c ft				4 11 4

N B —Masonry is being done by daily labour The labour is divided into gangs Each gang is under a Sub Overseer who is responsible for quantity and quality a head mason maistry who is responsible for quality of work and never leaves the Dam as long as masonry is in progress and a cooly maistry who keeps an account of the number of trips of stones brought by each set of coolies Each gang is divided into a number of sub gangs The recognised number of people in a sub gang and work done by each every day is detailed in the estimate above given Four Novgani carrying stone on their backs carry 300 lbs on the average each time When large weights have to be carried by 12 or 16 men jointly they do not carry more than 50 lbs per man

XII

MARIKANAVE DIVISION

Data for 100 Cubic feet

Item —MASONRY STONE IN SURKI MORTAR

Particulars	Per	Rate	Quantity	Cost
		Rs a p		Rs a p
1 Construction charges as per estimate No XI	100 c ft	4 11 4	100 c ft	4 11 4
2 Pumping	100 c. ft masonry			0 4 1
3 Miscellaneous charges such as Baskets buckets removing old masonry for further construction raking and the cost of miscellaneous articles which are required for general purpose	do		,,—	0 8 0
4 Trap stone as per estimate No X	100 c ft	16 5 0	45 (a)	7 5 5
5 Mortar as per estimate No VIII	100 c ft	11 2 6	50 (b)	5 9 3
Total for 100 c ft				18 6 1

If Hæmatite stones are used cost of 45 c ft Hæmatite will be 9—20 at Rs 8 4 7 or Rs 3 11 8 as per estimate No IX and the rate for 100 c ft masonry will be reduced by Rs 3 9 9 or cost for 100 c ft will be Rs 14 12 4

(a) Rates per cubic yard of stones is kept high and measurements are given leaving out the irregular projections This accounts for the low percentage of stones issued for masonry If projections are also taken into account the percentage will be 60

(b) 50 per cent is the quantity of mortar used but this is on the supposition that a cubic yard of lime and 4 c yd of surki give 5 c yds of mortar They actually give a little over 4 c yds of mortar Therefore the real percentage is 40

XIII

Data for 100 Cubic feet

Item —SAND

Particulars	Per	Rate	Quantity	Cost
		Rs a p		Rs a p
1 Collection and screening	c yd	0 9 0	1	0 9 0
2 Carriage by coolies lead 2 furlongs	do	0 4 0	1	0 4 0
3 Washing	do	0 5 0	1	0 5 0
Total for 27 c ft				1 2 0
Total for 100 c ft,				4 2 8

XIV

Data for 100 Cubic feet

Item—BREAKING JELLY FOR CONCRETE WORK

Particulars	Per	Rate	Quantity	Cost
		Rs a p		Rs a p
1 Collection of Gudagas or small stones at Dam site	c yd	0 4 0	1	0 4 0
2 Breaking charges ½ inch cubes	4 c ft	0 2 6	27	1 1 0
Total for 27 c ft				1 5 0
Total for 100 c ft				4 13 9

XV

MARIKANVE DIVISION

Data for 100 Cubic feet

Item —PORT LAND CEMENT CONCRETE

Proportion—1 Cement, 4 Concrete, 2 Sand

Particulars	Per	Rate	Quantity	Cost
t for 16 cubic feet—		Rs a p		Rs a p
1 Cement	c ft	3 4 0	4	13 0 0
2 Broken Jelly as per estimate No XIV	c ft.	0 0 9½	16	0 12 6
3 Sand as per estimate No XIII	c ft	0 0 8	8	0 5 4
4 Labour for mixing and laying	16 c ft	1 4 0	16 c ft	1 4 0
5 Sundries such as preparing planks &c	16 c ft of concrete	0 1 2		0 1 2
Total for 16 c ft				15 7 0
Total for 100 c ft				96 7 9

It is interesting to note as a result of experiments made here that the percentage of voids in metal broken in 2 inch cubes 1½ inch cubes one inch cubes or ¾ inch cubes is nearly the same In big metal the voids are big and less in number In small metal the void are small but great in number Hence to reduce the quantity of mortar metal of different sizes should be mixed

Big boulders were buried in cement concrete after plastering them all round to reduce the cost of concrete

XVI

Data for 100 Cubic feet

Item —POINTING FRONT FACE WITH CEMENT

Particulars	Per	Rate	Quantity	Cost

Data for 100 Cubic feet

Item.—CONVEYING STONES BY WIRE ROPE TRAMWAY

Particulars.	Per	Rate	Quantity	Cost
		Rs a p		Rs a p
Per day of 45 trips each of 10 c ft of stones or 450 cubic feet—				
Engine establishment—				
Crane man	1	1 0 6	1	1 0 6
Brakes man	1	0 9 0	1	0 9 0
Signal man	1	0 6 6	1	0 6 6
Driver, Fireman and water cooly		1 12 8		1 12 8
Total				3 12 8
Loading and washing near the Engine—				
Trolly coolies	Each	0 6 0	11	4 2 0
Washing coolies	Each	0 3 0	9	1 11 0
Ditto		0 2 0	8	1 0 0
Ditto		0 4 0	2	0 8 0
Navganis to convey stones from where they are unloaded to masons	Each	0 8 0	16	8 0 0
Total				15 5 0
Miscellaneous—				
Fuel	Ton	4 2 0	¼	1 10 0
Stock Lubricants etc				1 10 0
Cost of repairs to trucks				0 6 0
Proportionate charges for cleaning Engines etc once a week				0 4 0
Temporary establishment				0 14 8
Total				4 12 8
Total for 450 c ft				23 14 4
Cost of 100 c ft				5 5 0
For the supply of 100 c ft of stones by manual labour would cost as follows—				
For 60 c ft stones—				
Navganis or stone carriers	Each	0 8 0	4	2 0 0
Washing coolies	Each	0 4 0	3	0 12 0
Total for 60 c ft				2 12 0
For 100 c ft				4 9 4

N B —Stone is measured solid in both cases It will be seen that the cost in the case of Wire Rope Tramway is more than in the case of taking stones by Navganis alone The causes of the machinery costing more in this case are—(1) The stones as they came from quarries had to be unloaded washed and filled in special boxes to be taken by the Wire Rope Tramway These boxes did not take the stones direct to the masons, as that would interfere with the work They had to be unloaded on Dam about a 100 feet from the masons and then taken by Navganis to the masons At first the boxes were simply placed on Dam and stones had to be lifted from them by Navganis with great difficulty After some time we got into the system of unhooking the boxes and dropping the stones from the boxes on the Dam, after the boxes were lowered It may be stated here that the Wire Rope Tramway only worked from August 1901 to February 1903 and then too it did not do more than ⅓th of the whole work
